AUDITORIUM

Vandeville Makes Good.

The unflattering merit of the shows at this popular house, the pioneer of Vandeville in Norwich, is the subject of much favorable comment among the patrons of the theater. Although the operating expenses have steadily increased, and the salaries of the performers have gone up, the low scale of prices charged for admittance have been maintained. The weekly change of programme for this week brings a trio of acts that should meet with much approval. An act containing all the elements of novelty and comedy is The Minstrel Quintet, led by Wharton. Mr. Wharton's idea of doing a ventriloquist act with himself, Nibbs and Bordeaux are a clever pair of comedy character impersonators, who were the hit of the show the first three days of this week at the New Bijou in Bridgeport.

The ever popular gymnastic interlude will be furnished by Marzello and Wolf, a team of horizontal bar experts. The Heidelberg 4 will remain for the balance of the week. A series of motion pictures will be presented.

POLIS THEATER.

Thursday, Friday and Saturday.

If the show given the first half of this week is an indicative of the next three days, then there is little doubt of there being presented an excellent and enjoyable entertainment. The performance of the remaining three days of the week will be The Ballroom Girl, who has been the sensation of two continents. Associated with her will be The Dancing Dandies. The Strolling Players undoubtedly is one of the best of the type of itinerant musicians that is so popular now in the public fancy. Charles Walton, the well known and popular comedian and pretty little violinist, the little comedy sourette, will present an up to date travesty on New York's latest sensation, entitled The Actor and the Girl, and a variety of instrumental music. Miss Anita Julius, the clever singing comedienne, in her creation of the original "Hobbling Girl," and several new and latest musical pictures, will make the whole making a most complete entertainment, calculating to suit every one's taste.

Railway whistles inflict torture on so many people that the efforts abroad to check the plague have won approval from the people. Austria has introduced a system of dumb signaling to start and stop the trains. Belgium is trying compressed air whistles instead of steam, and Germany experiments with horns.
